YASEEN SIDDIQUI

Aspiring MERN Stack Web Developer

PROFILE SUMMARY

Trust & Safety Associate at Accenture with a Diploma in Computer Engineering (2026) and hands-on experience building full-stack MERN applications. Self-driven in transitioning into web development, having independently built and shipped multiple React/Node.js projects covering authentication, real-time attendance systems, and backend data persistence.

PROJECTS

OTP Attend | Personal Project

- OTP-based attendance verification system with a React/Vite frontend for secure, real-time student check-ins

Attendify | Personal Project

- Time-limited class-code attendance application enabling instructors to generate short-lived codes for session verification

Inventory Management System | Personal Project

- Rebuilt an inventory backend using Express.js and JSON-based persistence, replacing localStorage for reliable, server-side data handling

Gallery & Blog Site — @stoichonour | Personal Project

- Designed and built a gallery/blog platform to support content publishing for the @stoichonour Instagram brand

MemoryWorld Gallery | Personal Project

- Unity 3D Android gallery application; also built a Flutter-based stick-catching game exploring cross-platform mobile development

WORK EXPERIENCE

Trust & Safety Associate | Accenture, Mumbai *May 2025 – Present*

- Apply analytical rigor and process discipline in a high-volume operational role, strengthening problem-solving skills relevant to software debugging and QA

Intern | Atoconn System Labs

- Gained early technical/industry exposure through internship work

Intern | Cisco Metal & Alloys

- Gained early technical/industry exposure through internship work
